

GOVERNMENT DEGREE COLLEGE::TIRUVURU

Academic Year 2022-23, Best Practice-1

Installation RO Water Plant in the campus for Safe Drinking

Context: In Tiruvuru ground water is very hard with more dissolved salt percentage so it is not suitable and safe to drink. A lot of amount has been wasted for buying water cans from private suppliers. To find out a permanent solution to the dire need for drinking water.

Objectives: To provide safe drinking for staff and students

To take of health and hygiene of staff and students

To cut the unnecessary expenditure on water cans purchase

Practice: Installation of RO water plant is done on 31st October 2022 with the philanthropy of Rs.100000 by sri M.V.Jayaprakasam retired History lecturer of the institution. On 22 June he handed over the cheque to the principal of the institution. Eventually tenders were called for establishment of RO plant. Least amount quoted company was given an opportunity to establish RO plant in the campus. The donor was invited, acclaimed and felicitated for his magnanimity.

Obstacles faced: Lack of funds

Resources needed: Big heart from the side of donors reputed RO plant installers

Impact: Solved the safe drinking water problem enable the institution to use the amount spent for drinking water for other purposes.

Rs.1,00,000 Donation

R.O Plant Inauguration

Students of GDC Tiruvuru, quenching their thirst by drinking safe drinking water

Academic Year 2022-23, Best practice-2
